MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Overview

The recent liberalization of FDI in Real Estate also augurs well for the Industry as it would result in more inflow of capital and technology in the Industry. The steady increase of disposable income and the rise of middle class are likely to keep up the demand for residential property buoyant. The real estate sector in India occupies a place of prominence in Indian Economy. In view of its massive potential for employment and growth, the Government allowed FDI in housing sector. The new avenues are coming up in real estate sector along with new challenges. Banks and Financial Institutions are encouraging individuals and households for easy home loan. Real Estate sector is also giving boost to other sectors like cement, steel and infrastructure sector. Thus the real estate sector is a core sector of Indian Economy.

Opportunities, Threat and Outlook

The real estate sector in India has undergone rapid changes in the past few years. New competitors have entered the core area of our operations in recent times. The fight for the market share has intensified with competition resorting to higher advertising cost. This, combined with substantial increase in costs of critical inputs like cement, steel etc., has neutralized the impact of Government's positive policies for real estate sectors. Most of the new players, who have come in with the support of large business groups, have the financial strength to sustain large scale investments. These players continue to propel the competition with improved quality of products and services.

Risks and concerns

The Company is continuously evaluating the risks of getting into areas where it has no exposure earlier, as compared to the risk of continuing to operate in an overcrowded, matured market. Although major initiatives in the infrastructure of road and transportation have been made, yet the availability of adequate parking space and utilities such as Power etc. still needs the attention of policy makers. The lack of uniformity in the regulatory environment concerning the real estate as also the availability of quality manpower, market research models and reliable databases on industry are concerns that need to be addressed for attracting FDI inflows in the industry.

Internal control system and its adequacy

The Company has adequate internal control system commensurate with the size of its business supplemented with an internal audit to ensure against any unauthorized use or disposition of assets.

The internal controls are periodically reviewed by the Audit Committee to ensure their effectiveness and adequacy.

Financial performance

- a) **Share Capital:** The Company's issued and subscribed share capital consists of Equity Shares only. The paid up capital of the Company as on 31-03-2010 was at Rs. 10,000,000/- comprising of 1,000,000 Equity Shares of Rs. 10/- each.
- b) **Reserves and Surplus:** During the year under review, the Reserves and Surplus of the Company amounted to Rs . 91,50,912/-.
- c) **Current Assets and Liabilities:** Current Assets and Liabilities of the Company during the year under review stood at Rs.23,89,30,821/- and Rs. 22,68,16,275/- -respectively as compared to Rs. 19,49,92,398/- and Rs. 18,31,03,604/- previous year.

Human Resources

Your Company has required manpower to manage its activities keeping in view its emphasis on cost reduction. The Company recognizes the importance of human resources in achieving success at commercial pursuits and follows a good man management policy.
